Objet : recommendation for Anthony FARAUT

Villeurbanne, December the 5th, 2016

Anthony FARAUT graduated the double Master Degree program between INSA Lyon (France) and Universität Passau (Germany) in october 2016. I know him since 2014 as the academic exchange coordinator but also as a professor and as his Master Thesis supervisor.

Anthony is an outstanding student, having excellent academic results, mastering not only the theoretical aspects of computer science but also the engineering and implementation sides of programming. He works efficiently and quickly.

By fulfilling a double degree involving lectures and exams in French, German and English in two different countries, Anthony has proven a high adaptability to different learning, working and social environments.

He is a proactive person, easy and pleasant to work with.

I do recommend him strongly.

Elöd EGYED-ZSIGMOND
PhD. Habil. Associate Professor
LIRIS/INSA de Lyon
