

To whom it may concern:

I gladly write a recommendation letter for Anthony Faraut. He did 3 months internship in RLF team during the summer of 2014 and I was his supervisor. Since the first day Anthony was someone interested, motivated, that easily understood what he had to do. He is someone proactive, able to find himself the information that he needs.

During the project Anthony had to work with technologies that he didn't know as Mongoddb, Pymongo and Django but he was able to learn fast and to use them efficiently in the project.

He completed his tasks quickly and efficiently with enthusiasm. And of course, he finished the project on time with a good quality.

In short, Anthony did an excellent work and I was very happy to work with him. I strongly recommend Anthony for a new internship.

Sincerely,

Luis Domingues

Software Engineer at Amadeus SAS.
